

## MONTHLY REPORT OF RIVER AND FLOOD CONDITIONS

REPORT FOR:

MONTH

YEAR

April

2000

SIGNATURE

Gregory K. Waller

In Charge of HSA

DATE

May 07, 2000

TO: Hydrometeorological Information Center, W/OH2  
 NOAA / National Weather Service  
 1325 East West Highway, Room 7230  
 Silver Spring, MD 20910-3283

*When no flooding occurs, include miscellaneous river conditions, such as significant rises, record low stages, ice conditions, snow cover, droughts, and hydrologic products issued (WSOM E-41).*

☒ No flood stages were reached in this HSA for the month above.

Rainfall for the month of April was below normal for much of the HSA. Being spring, there were a few rainfall events during the month, but rainfall totals again fell well short of needed amounts. Light to moderate rain on the 2<sup>nd</sup> brought less than ½ of an inch of rain to the Heartland Counties. Heavier rainfall on the 12<sup>th</sup>...associated with a widespread severe weather event... brought some ½ to 1 inch of rain to Schleicher Coleman, and Brown Counties. An isolated supercell crossed northern Throckmorton County on the 16<sup>th</sup>...bringing an inch of rain and softball size hail to the northeastern portions of the county. On the 20<sup>th</sup>, scattered thunderstorms brought up to 1 inch of rain to parts of Schleicher and Coleman counties. On the 30<sup>th</sup>, isolated thunderstorms over the northern Big Country brought 1 to 2 inches of rain to northern Jones and Shackelford counties.

For the month of April, San Angelo received 0.57 inches of rain. This is 1.10 inches below normal for the month. For the year so far, San Angelo has received 1.65 inches of rainfall, which is 2.80 inches below normal. Abilene received 0.64 inches of rain in April, which is 1.26 inches below normal. For the year so far, Abilene has received 2.13 inches of rainfall. This is 3.32 inches below normal. The cities of Abilene and San Angelo continue with water restrictions. Soil moisture across the area is very low. Rivers remain at or near baseflow and reservoirs are well below conservation levels. The threat for flooding is low.

## Rainfall Totals from Cooperative Observers:

Albany	0.63	Paint Rock	0.44
Ballinger	0.44	Richland Springs	1.80
Brady	0.89	Robert Lee	0.30
Burkett	1.06	Rotan	0.55
Coleman	0.55	San Saba	1.07
Eldorado	2.34	Sonora	1.47
Fort Griffin	3.77	Sterling City	0.18
Haskell	2.50	Telegraph	1.44
Junction	2.27	Throckmorton	2.08
Mason	1.92	Water Valley	0.16
Menard	1.06		
O.C. Fisher	0.28		
Ozona	0.51
